

For over 40 years, MedicAlert® has been protecting people throughout South Africa from tragic and fatal mistakes in emergencies with their world-renowned MedicAlert bracelet. By having your medical conditions engraved on your bracelet (and also accessible through our database) doctors are forewarned of your medical conditions before they treat you and therefore mistakes are prevented.

TO JOIN MedicAlert®

Your MedicAlert membership provides you with a personally engraved emblem with your personal membership and access to medical records.

The cost of joining is R150, which includes all services and your first year's subscription. An annual fee of R49 is charged to maintain a 24-hour hotline service and updating of your records when necessary.
